Comments of the committee on institutional values and best practices and suggestions for fostering a culture of quality: -

- In addition to cultural festival to familiarize young generation with traditional art, culture and lifestyle of the region, the programmes related to self-employment creation can also be conducted for their overall upliftment.
- In environment education and practice, the programmes can be conducted outside the campus within society, and other organisations can also be included in this activity with the help of MOU's.

Suggestions of the committee for making the ranking process more objective, transparent, relevant and accurate so that high ranking is true reflection of quality and excellence: -

- Workshops at the cluster level should be conducted for IRAC members of different colleges bin-to-bin to understand SAR criteria and corresponding evaluation process.
- There should be separate performance for Tier I, II and III Colleges as there is a large difference in facilities and streams.
- Colleges with less facilities should be provided with financial aid as they lack in funds to conduct regular extra-curricular activities.
