| 7       | Brief Report                                           | <p>On September 10<sup>th</sup> 2026, Department of Sociology, JLN Government College Haripur (Manali), organized an Awareness Lecture on Financial Literacy and Banking Services for the students. Mr. Shirish Bodh (Bank official) was invited as the Resource Person to familiarise students with basic banking procedures, financial management, and the safe and responsible use of banking and digital financial services. The lecture was particularly relevant for Sociology students as financial literacy is closely associated with social well-being, economic behaviour, social inequality, financial inclusion, and responsible citizenship. Understanding access to banking and financial services enables students to appreciate how economic factors influence individuals, families, and communities in contemporary society.</p> <p>The lecture aimed to:</p> <ul style="list-style-type: none"> <li>• Create awareness among students about basic banking services and financial management.</li> <li>• Familiarize students with savings accounts, deposits, loans, and other banking facilities.</li> <li>• Educate students about digital banking and safe online financial transactions.</li> <li>• Encourage responsible financial behavior and informed decision-making.</li> <li>• Help students relate financial practices to broader social and economic issues affecting individuals and communities.</li> </ul> <p>The Resource Person also highlighted how access to banking facilities and financial awareness can contribute to financial inclusion and socio-economic empowerment, particularly among young people and sections of society that may have limited awareness of formal financial services. This provided Sociology students with an opportunity to understand financial practices not merely as individual economic activities but also as issues connected with wider social</p> |

structures and inequalities. Special emphasis was laid on digital banking safety, including the need to safeguard ATM/PIN details, passwords, OTPs, and other confidential banking information. The students were sensitized about fraudulent calls, messages, suspicious links, and other common methods used in financial scams. The awareness lecture proved to be an informative and meaningful initiative of the Department of Sociology. The session encouraged students to become financially aware, responsible, and informed citizens and equipped them with knowledge that can be useful both in their personal lives and in creating awareness within society. At the end Dr. Sheetal Thakur concluded the session with a vote of thanks. A total of 58 students and 02 teachers attended the session successfully.
