Faculty:

S.No.	Name	Qualification	Designation	Experience
1	Krishna Sharma	M.A, M.Phil.	Assistant Professor	23 Years

Sociology is the youngest and perhaps most versatile of the social sciences. The Department of Sociology at Jawahar Lal Nehru Govt. College was established in 2010. The undergraduate major in Sociology provides students with theoretical and methodological tools, and substantive insights for understanding human social life and institutions. The major is designed to offer its students training in critical thinking, analytical problem solving and reasoned judgment as well as broad knowledge of human relations and social systems, providing useful tools for variety of careers.

The curriculum and requirements are flexible enough to permit students to tailor their program to fit individual needs and interests. The undergraduate Sociology program includes opportunities to put sociological ideas into practice through research by means of independent studies. It also trains students to grasp the social structures, understand the social processes, map the dynamics of social change and make sense of individual and collective experiences in their proper social context.

The department places emphasis on integrated learning based on classroom lectures, interactive tutorials, use of audio-visual material, seminars, extension lectures and internal assessment. We work with a five-point pedagogic philosophy: rigor of learning, engaged learning, learning in groups, democratization of knowledge, and egalitarian ethos.

Course Offered:

The Department of Sociology at JLN Govt. College Haripur offers 3 years BA (Program) in Sociology under Choice Based Credit System (CBCS) is as under:

Course Structure B.A with Sociology
(U.G Yearly Programme w.e.f.2018)

COURSE OUTCOMES

BA SOCIOLOGY

Program Objectives:

Sociology is the study of social groups, institutional structures and social interactions among individuals and social groups. More specifically, sociologists examine the cultural, ideological, economic and political contexts of human actions including the processes whereby social institutions are created, maintained, and transformed. It deals with the systems of beliefs and values, the patterns to which social relations conform and the processes whereby social institutions are built. Developing an understanding of these aspects of the sociological tradition, the interrelationship between social order and social change is one of the major objectives of the program.

Another aim is the development of an appreciation for a disciplined inquiry, observation and research analysis of the social phenomena. It also focuses to understand the theoretical approaches, the nature of sociological research methods and major expressions of scientific research within sociology.

The students will also be able to apply sociological perspective and sociological concepts and principles to substantive areas (like social inequality, political sociology, economic sociology, comparative sociology etc.) addressed by sociologists.

Program Outcomes:

Upon successful completion of the B. A. Sociology Program, students will have the knowledge, skills and competence to:

1. Demonstrate critical thinking by analyzing and evaluating social, political and cultural arguments across different issues and variety of areas such as inequality, social problems, race, class and gender.
2. Exhibit sociological understanding of social phenomena.
3. Formulate and communicate effective and convincing written and oral arguments.
4. To use the major classical and contemporary perspectives in social theory in an articulate manner.
5. To differentiate between methods and methodology and appropriately use them in sociological inquiries.
6. Practice sociology as educated and civically engaged persons.
7. Ability to understand and apply the tools of analysis and methods of sociology and their applicability to work and involvement in their community.

First year BA I
